The quadrant is labeled on the Learning Style Inventory in italics. Kolb (1984) describes the characteristics of each style based on both research and clinical observation. Convergent --The convergent learning style relies primarily on the dominant learning abilities of abstract conceptualization and active experimentation.

The Learning Style Inventory - College of Medicine

Based on over 40 years of research from David Kolb, Ph.D., the learning style inventory describes the way you learn and how you deal with day-to-day situations. Learning can be described as a cycle made up of four basic processes. The LSI takes you through those processes to give you a better understanding of how you learn with implications for:

Get Free Kolb Learning Style Inventory Workbook

Kolb's Learning Style Questionnaire This questionnaire is designed to find out your preferred learning styles(s) as an adult. Over the years, you have probably developed learning habits that help you benefit more from some experiences than from others.

Kolb's Learning Style Questionnaire - City of Bunbury

David Kolb published his learning styles model in 1984 from which he developed his learning style inventory. Kolb's experiential learning theory works on two levels: a four-stage cycle of learning and four separate learning styles. Much of Kolb's theory is concerned with the learner's internal cognitive processes.
