“N95” is a term referring to the N95 filter class, which removes at least 95% of airborne particles using a “most-penetrating” sized particle during “worst case” NIOSH testing. The FFR classes include N (not resistant to oil), R (somewhat resistant to oil), and P (strongly resistant to oil) series, which are available at 95, 99, and 100 filtration efficiency levels. FFRs provide ...
